Notes:

- 1. Control Boards, switches and remotes are NOT interchangeable between systems.
- 2. Items 4 thru 6 are used for Apex single awning installations thru 2006; and for Mirage single awing installations thru 2007. DSK style switch assy (item 5) must be used with "DSK" control boxes (items 1).
- 3. Keypads (items 7, 8) must be used with control box (item 3).
- 4. Original Apex multiple awning installations used a touch pad control panel. Touch pads have been superseded with a key pad control panel. For replacements order item 11 for dual awnings; item 17 for 4-awning installations. Replacement instructions are found in the Apex service manual.
- 5. Boxes cannot be interchanged between systems; item 14 110VDR control box must be used with item 16 110VDR control box. If replacing original control boxes (items 13, 15) it will be necessary to replace both boxes with items 14, 16)
- 6. Replacement motion sensors must be mounted vertically. If replacing a horizontal mount sensor, it will be necessary to order and install R001356 bracket kit (Mirage) or R001355 bracket kit (Apex). Refer to the product service manual for sensor and bracket installation.
- 7. Item 9 (control box, motor 1 & 2) is obsolete. Replace with item 10.
- 8. The STD ignition lockout for 110V applications is available as an upgrade kit (SR0086). Kit includes sensor (item 25), splitter (item 26), 60" cable (item 22) and 6" cable (not listed).
- 9. The RTL ignition lockout for 110V applications is available as an upgrade kit (SR0087). Kit includes sensor (item 25a), splitter (item 26), 60" cable (item 22) and 6" cable (not listed). The RTL ignition lockout sensor is only available for 110V Direct Response Systems.

10. Ignition lockout sensors are available only with Direct Response Systems.

Notes:

- 1. 418MHz remotes (items 1, 5, 8) and remote receiver (item 11) are used thru 2006. Remote transmitter and receiver must match in frequency (418 MHz). The 418MHz receiver is marked with "RR24".
- 2. 433MHz remotes (items 2, 3, 4, 6, 7, 9, 10) and remote receiver (item 12) are used for 2007 and on. Remote transmitter and receiver must match in frequency. 433MHz receivers are marked "RR".
- 3. For single awning applications, when replacing a 433MHz gray button key FOB (item 2) and/or a receiver marked "RR version 1", it will be necessary to replace both the FOB and the receiver. Use items 3 and 12 version 5. Also refer to note 5, 6 &7 below.
- 4. Replacement batteries are available through local battery outlets. Below is a replacement guide:

Gray button key FOBS (items 1, 2): CR2032, 3V Lithium, Flat

Key FOB w/ Antenna (item 3): Radio Shack p/n 23-279 or equivalent

Key pad style remotes (items 4 thru 10): standard AAA (qty: 2)

- 5. A remote control kit (p/n SR0014) is available and contains items 3, 12, 13 and associated hardware.
- 6. Key FOBs marked version 4 (item 3) must be used with receivers (item 12) marked version 4.
- 7. Remote Receiver marked Version 5 (item 12a) is compatible with all remotes marked Version 2 thru 5.
