82 Sierra Brown	84 Navy	85 Bordeaux	88 Black	
-----------------	---------	-------------	----------	--

---

## FABRIC REPLACEMENT PROCEDURES

### REPLACEMENT FABRICS FOR PATIO AWNINGS ARE AVAILABLE TWO WAYS:

- **Custom made to your specification:** Simply fill out the Patio Awning custom order form and we will make an exact replacement fabric, then ship it to you directly from the factory when authorized by your distributor. All orders are custom and Non-Returnable.
- **Distributor stocking fabric:** All Carefree distributors stock replacement Patio Awning fabrics in the most common sizes and colors. These fabrics will ship directly from the distributor to you unfolded in a tube. Stocking fabrics will be 2 pieces (canopy & valance), and include 3/16" & 1/4" polycord to accommodate the majority of applications, allowing the fabric to be used on a wide array of awnings. If 5/32" polycord is needed, the polycord must be ordered separately.

### MEASURING

Refer to the product custom canopy order forms for specific requirements when ordering.

### FABRICS

- **Polyweave fabric:** As with all woven fabrics, light may show through the Polyweave vinyl. This is a fabric characteristic and is not covered under warranty.
- **Vinyl fabric:** Pinholes or tears must be reported at time of delivery to obtain a complete replacement fabric under warranty.
- **Fabric Tolerances:** Carefree allows the following tolerances on all fabrics:
  - ± 1" on hem on Patio Awnings
  - ± 1/2" on all other companion awnings
- **Flared Canopy:** Starting in November 2012, Carefree canopies for vertical arm patio awnings are flared. The flared canopy provides better appearance, reduced wrinkling and improved fabric tension. The flared canopy will measure approximately 5" narrower at the roller tube than at the awning rail.

### NOTES:

1. Replacement fabrics for **Zip Dee** awnings are not available.
2. **Hi-lo** Replacement fabrics have a 6' 6" extension.
3. Replacement fabrics for **Carter** awnings require you to provide an extension measurement and poly cord size.
4. Replacement canopies used for LED Lighting installations are custom orders. Canopy includes the LED harness.
5. Replacement fabrics **do not** include a new pullstrap.
6. On vinyl canopies, side hems and poly cords are stitched in with a sewing machine. On occasion, this stitching may allow water to seep or leak through the stitches. This is normal and not a defect covered by warranty. Treat the seams with a seam sealer.
7. **Carefree cannot accept verbal orders for any replacement fabric.**
8. All orders are custom and Non-Returnable.

## FABRIC REPLACEMENT

---

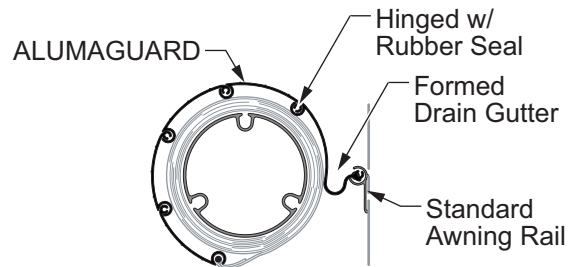

### FABRIC WRAP

When the awning is rolled up for travel or storage, it is important that the canopy fabric is protected from the harsh effects of the sun and exposure to the elements. Carefree offers some of the best fabric wraps on the market.

#### ALUMAGUARD METAL WRAP COVER

Carefree's Alumaguard cover is an aluminum shield constructed with hinged slats that wraps around the fabric when the awning is closed. Carefree Alumaguard features include:

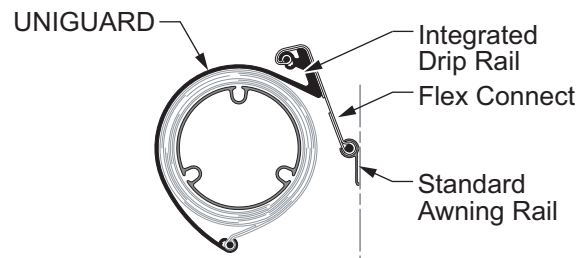

- ☑ Virtually leak proof
- ☑ Rubber seal in the tip of the Alumaguard lead slat (at the awning rail connection point). The seal is actually compressed against the inside of the rail while the awning is extended
- ☑ Exclusive drain away design that works as a gutter to catch and channel water to either end of the canopy. It enables water to immediately flow away from the awning rail connection.
- ☑ Every metal slat hinge is protected by Carefree's rubber seal that is pinched together by the joined slats when the awning is extended.
- ☑ Used with Acrylic and Vinyl.
- ☑ Available on many models of patio and window awnings.\*
- ☑ All orders are custom and Non-Returnable.

#### UNIGUARD

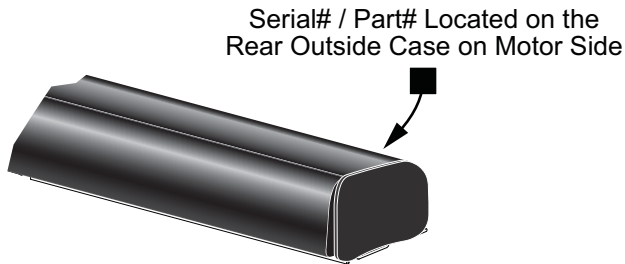

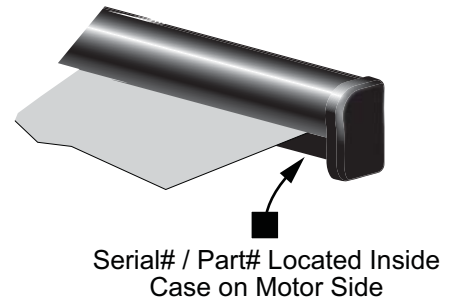

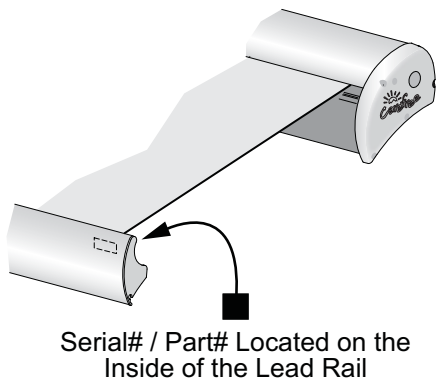

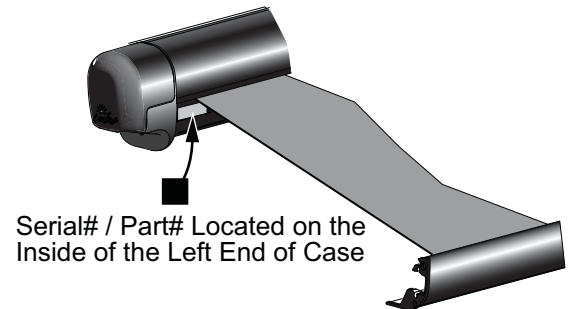

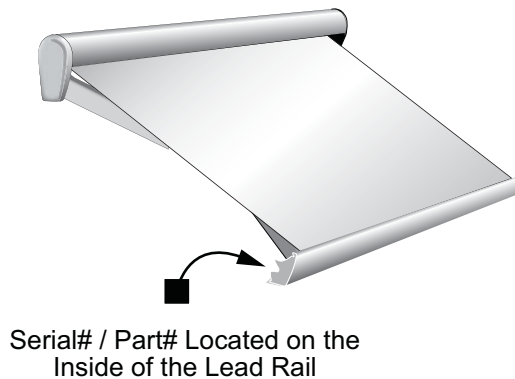

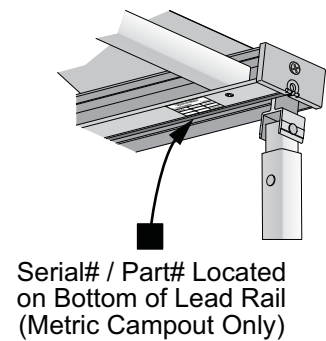

Carefree's Uniguard metal wrap is designed to streamline the look of Carefree awnings and provide a sleek integrated appearance for the coach.

- ☑ Single one-piece aluminum construction.
- ☑ Has an integrated drip rail.
- ☑ No special tools required for installation.
- ☑ Used with Acrylic and Vinyl.
- ☑ Available for 12V patio awnings, Pioneer and Pioneer Lite patio awnings and SL window awnings only.
- ☑ All orders are custom and Non-Returnable.

**\* Note:** Some fabric wrap options may not be available for all model applications. Consult the model order form for availability.
