

# MARQUEE

## 12V Lateral Arm Window and OtD Awnings

- The OtD (Over the Door) and Window Awnings are state of the art lateral arm awnings.
- When retracted, the housing provides protection against the elements while the streamlined styling blends in with the coach sidewall and is a perfect complement to other Carefree products.
- Each unit is equipped with lateral support arms. No vertical arms interfere with coach sidewalls, custom graphics or equipment that may be mounted on the sidewalls.
- Heavy duty construction with an all metal chassis and outdoor rated tubular motor.
- Uses a standard awning rail for mounting.
- Optional factory installed 12V LED lighting mounted on the lead rail is available for the Marquee awning. LED lighting requires a separate 12V control switch.
